Lisa – I'm so sorry for not getting you an example of an SOW for the removal at OU2 before. I have put out a call to a couple of folks for some good examples and will send them ASAP. feel free to bug me after Thanksgiving if I haven't sent you any thing yet.

As to your 2nd Q – yes I did get a call from a guy - Miles ?somebody? from Apex about 44th & Fox St. Unfortunately, I did not have it located properly on the map that I was able to pull up – I was on the other side of I-25 – so I may have mis-represented things a bit since I was looking at an area that appeared to be mostly residential. I did explain that the remedy for OU1 was only for residential soils and not for commercial or industrial properties.

Subject: a couple of questions...

Good morning, Paula! I have a couple of VB/I70 questions for you. First, back in September I asked if

you could provide an example SOW for a previously approved removal order site. I know at that time you were super busy trying to prepare for the end of the fiscal year, so I thought I would ask you again. ☺
Second, Denver recently received a general development plan for redevelopment of the old Denver Newspaper Agency property at 4400 Fox St. (see below outlined in pink). The top portion of this property is within the OU3 footprint. Have you received any communication from the developer regarding the potential remediation of this property? Thanks!!

.VB/I-70 OU3 boundary (approx)
